The Ixodid Ticks (Acari: Ixodidae) of Southern Africa

 Biblioteca
Universidad Zaragoza

of the *Rhipicephalus* species illustrated by means of scanning electron photomicrographs in the book. We express our thanks to Mr Deon Bakkes, of the section Epidemiology, Parasites and Vectors, at the ARC-Onderstepoort Veterinary Institute who assisted with the identification of several tick species housed in the Gertrud Theiler Tick Museum.

We are also grateful for copyright permission granted by the editor of the *Onderstepoort Journal of Veterinary Research* to publish the coloured illustrations by André Olwage of those *Amblyomma* species that are capable of transmitting heartwater to domestic cattle, sheep and goats which appeared in the journal in 1987. The editors of 'Onderstepoort 1908–2008', published by the Veterinary History Committee of the South African Veterinary Association, granted permission to use excerpts from the chapter on parasitology. The acting director of the Mammal Research Institute, University of Pretoria, holder of the copyright to *The Mammals of the Southern African Subregion* by Skinner and Chimimba (2005), kindly granted us permission to use excerpts of the text. We also express our thanks to a number of publishing houses for permission to use material to which they held the copyright; Allen Press granted copyright permission to use material related to the *Haemaphysalis* species featuring in the *Journal of Parasitology*; Bloomsbury Press had no objection to us reworking the images in Don Arthur's book *Ticks of the Genus Ixodes in Africa* as line drawings; and Oxford University Press on behalf of the Entomological Society of America gave copyright permission to reuse material from articles published in the *Journal of Medical Entomology*.

Finally we would like to acknowledge the support that we have received from Springer, Life Sciences, Dordrecht, during the production of this book, in particular from Mariska van der Stigchel.

Contents

1	Introduction	1
2	History	5

4.11.8	Disease Relationships	138
5	The Genus <i>Haemaphysalis</i> Koch, 1844	141
5.1	<i>Haemaphysalis aciculifer</i> Warburton, 1913	141
5.1.1	Published Descriptions	141
5.1.2	Notes on Identification	142
5.1.3	Distribution	145
5.1.4	Hosts	146
5.1.5	Life Cycle	147
5.1.6	Seasonal Occurrence	148
5.1.7	Disease Relationships	148
5.2	<i>Haemaphysalis colesbergensis</i> Apanaskevich & Horak, 2008	148
5.2.1	Published Description	148
5.2.2	Notes on Identification	148
5.2.3	Distribution	149
5.2.4	Hosts	150
5.2.5	Sites of Attachment	150
5.2.6	Life Cycle	150
5.2.7	Seasonal Occurrence	150
5.2.8	Disease Relationships	151
5.3	<i>Haemaphysalis cooleyi</i> Bedford, 1929	151
5.3.1	Published Descriptions	151
5.3.2	Notes on Identification	151
5.3.3	Distribution	153
5.3.4	Hosts	154
5.3.5	Life Cycle and Seasonal Occurrence	154
5.3.6	Disease Relationships	154
5.4	<i>Haemaphysalis elliptica</i> (Koch, 1844)	154
5.4.1	Published Description	155

5.4.3	Distribution	158
5.4.4	Hosts	160
5.4.5	Sites of Attachment	164
5.4.6	Life Cycle	165
5.4.7	Seasonal Occurrence	166
5.4.8	Disease Relationships	167
5.5	<i>Haemaphysalis leachi</i> (Audouin, 1826)	167
5.5.1	Published Descriptions	167
5.5.2	Notes on Identification	167
5.5.3	Distribution	167
5.6	<i>Haemaphysalis hoodi</i> Warburton & Nuttall, 1909	168
5.6.1	Published Description	168
5.6.2	Notes on Identification	168
5.6.3	Distribution	170
5.6.4	Hosts	171
5.6.5	Sites of Attachment	172
5.6.6	Life Cycle	172
5.6.7	Seasonal Occurrence	173
5.6.8	Disease Relationships	173
5.7	<i>Haemaphysalis hyracophila</i> Hoogstraal, Walker & Neitz, 1971	173
5.7.1	Published Description	173
5.7.2	Notes on Identification	174
5.7.3	Distribution	176
5.7.4	Hosts	176
5.7.5	Life Cycle	177
5.7.6	Seasonal Occurrence	177
5.7.7	Disease Relationships	178
5.8	<i>Haemaphysalis parmata</i> Neumann, 1905	178
5.8.1	Published Descriptions	178
5.8.2	Notes on Identification	178
5.8.3	Distribution	181
5.8.4	Hosts	181
5.8.5	Life Cycle, Seasonal Occurrence and Disease Relationships	181
5.9	<i>Haemaphysalis pedetes</i> Hoogstraal, 1972	182
5.9.1	Published Description	182
5.9.2	Notes on Identification	182
5.9.3	Distribution	184
5.9.4	Hosts	185
5.9.5	Sites of Attachment	186
5.9.6	Life Cycle	186
5.9.7	Seasonal Occurrence	186
5.9.8	Disease Relationships	186
5.10	<i>Haemaphysalis silacea</i> Robinson, 1912	186
5.10.1	Published Description	186

5.10.3	Distribution	189
5.10.4	Hosts	189
5.10.5	Sites of Attachment	191
5.10.6	Life Cycle and Population Structure	191
5.10.7	Seasonal Occurrence	191
5.10.8	Disease Relationships	191
5.11	<i>Haemaphysalis spinulosa</i> Neumann, 1906	192
5.11.1	Published Description	192
5.11.2	Distribution	192
5.11.3	Hosts	193
5.11.4	Life Cycle, Seasonal Occurrence and Disease Relationships	193
5.12	<i>Haemaphysalis zumpti</i> Hoogstraal & El Kammah, 1974	194
5.12.1	Published Description	194
5.12.2	Notes on Identification	194
5.12.3	Distribution	196
5.12.4	Hosts	197
5.12.5	Life Cycle	198
5.12.6	Seasonal Occurrence	198
5.12.7	Disease Relationships	198
6	The Genus <i>Hyalomma</i> Koch, 1844	201
6.1	<i>Hyalomma dromedarii</i> Koch, 1844	202
6.1.1	Published Descriptions	202
6.1.2	Notes on Identification	202
6.1.3	Distribution	205
6.1.4	Hosts	206
6.1.5	Sites of Attachment	206
6.1.6	Life Cycle	207
6.1.7	Disease Relationships	207
6.2	<i>Hyalomma glabrum</i> Delpy, 1949	208
6.2.1	Published Description	208
6.2.2	Notes on Identification	209
6.2.3	Distribution	212
6.2.4	Hosts	212
6.2.5	Life Cycle	212
6.2.6	Seasonal Occurrence	212
6.2.7	Disease Relationships	214
6.3	<i>Hyalomma rufipes</i> Koch, 1844	214
6.3.1	Published Descriptions	214
6.3.2	Notes on Identification	214
6.3.3	Distribution	217
6.3.4	Hosts	218
6.3.5	Sites of Attachment	222
6.3.6	Life Cycle	222

6.3.7	Seasonal Occurrence	222
6.3.8	Disease Relationships	226
6.4	<i>Hyalomma truncatum</i> Koch, 1844	227
6.4.1	Published Descriptions	227
6.4.2	Notes on Identification	227
6.4.3	Distribution	230
6.4.4	Hosts	231
6.4.5	Sites of Attachment	233
6.4.6	Life Cycle	235
6.4.7	Seasonal Occurrence	236
6.4.8	Disease Relationships	237
7	The Genus <i>Ixodes</i> Latrielle, 1795	239
7.1	<i>Ixodes alluaudi</i> Neumann, 1913	241
7.1.1	Published Descriptions	241
7.1.2	Distribution	242
7.1.3	Hosts	242
7.1.4	Life Cycle	243
7.1.5	Biology and Disease Relationships	243
7.2	<i>Ixodes aulacodi</i> Arthur, 1956	243
7.2.1	Published Descriptions	243
7.2.2	Distribution	244
7.2.3	Hosts	244
7.2.4	Sites of Attachment	244
7.2.5	Life Cycle	244
7.2.6	Seasonal Occurrence	244
7.2.7	Disease Relationships	245
7.3	<i>Ixodes bakeri</i> Arthur & Clifford, 1961	245
7.3.1	Published Descriptions	245
7.3.2	Distribution	245
7.3.3	Hosts	246
7.3.4	Life Cycle	246
7.3.5	Seasonal Occurrence	247
7.3.6	Sites of Attachment and Disease Relationships	247
7.4	<i>Ixodes bedfordi</i> Arthur, 1959	247
7.4.1	Published Description	247
7.4.2	Distribution	247
7.4.3	Hosts	247
7.4.4	Biology and Disease Relationships	248
7.5	<i>Ixodes catherinei</i> Keirans, Clifford & Walker, 1982	248
7.5.1	Published Description	248
7.5.2	Distribution	248
7.5.3	Hosts	248
7.5.4	Biology and Disease Relationships	248

7.6	<i>Ixodes cavipalpus</i> Nuttall & Warburton, 1908	249
7.6.1	Published Descriptions	249
7.6.2	Notes on Identification	249
7.6.3	Distribution	251
7.6.4	Hosts	251
7.6.5	Sites of Attachment	252
7.6.6	Life Cycle	252
7.6.7	Seasonal Occurrence	252
7.6.8	Disease Relationships	252
7.7	<i>Ixodes corwini</i> Keirans, Clifford & Walker, 1982	253
7.7.1	Published Description	253
7.7.2	Distribution	253
7.7.3	Hosts	253
7.7.4	Life Cycle	253
7.7.5	Seasonal Occurrence and Disease Relationships	254
7.8	<i>Ixodes drakensbergensis</i> Clifford, Theiler & Baker, 1975	254
7.8.1	Published Description	254
7.8.2	Notes on Identification	254
7.8.3	Hosts	256
7.8.4	Sites of Attachment	256
7.8.5	Life Cycle	256
7.8.6	Seasonal Occurrence	257
7.8.7	Disease Relationships	257
7.9	<i>Ixodes elongatus</i> Bedford, 1929	257
7.9.1	Published Descriptions	257

About the Authors

Ivan G. Horak is an emeritus professor in the Department of Veterinary Tropical Diseases, Faculty of Veterinary Science, University of Pretoria, Onderstepoort, South Africa.

Heloise Heyne is a senior technician and the curator of the Gertrud Theiler Tick Museum, in the section Epidemiology, Parasites and Vectors, Agricultural Research Council-Onderstepoort Veterinary Institute, Onderstepoort, South Africa.

Roy Williams is a senior researcher in the section Epidemiology, Parasites and Vectors at the Agricultural Research Council-Onderstepoort Veterinary Institute, Onderstepoort, South Africa.

G. James Gallivan Ottawa, Ontario, Canada. Formerly Department of Biology, University of Swaziland, P/B Kwaluseni, Swaziland.

Arthur M. Spickett is a retired senior researcher in the section Epidemiology, Parasites and Vectors at the Agricultural Research Council-Onderstepoort Veterinary Institute, Onderstepoort, South Africa.

J. Dürr Bezuidenhout is a retired veterinary researcher and deputy director of the Agricultural Research Council-Onderstepoort Veterinary Institute, Onderstepoort, South Africa.

Agustín Estrada-Peña is a professor in the Department of Parasitology, Faculty of Veterinary Medicine, University of Zaragoza, Zaragoza, Spain.
