Open Access

* This publication is a hybrid journal, giving authors the choice of making their article freely accessible to users by paying an open access article processing charge (APC), or choosing traditional article publication, allowing access to users through subscription and other purchasing options. Now that your article has been accepted for publication you may enable unrestricted public access by selecting "yes" below. If you select yes, you commit to pay the US \$2,195 APC.

Although voluntary page charges do not apply to open access article submissions, other applicable charges (such as over-length paper charges or a charge for the use of color in print format) will be billed separately once article formatting is complete (but prior to publication). Over-length paper charge details can be found [here](#).

For any questions regarding IEEE open access policies, please refer to our [Frequently Asked Questions on open access](#).

- Yes** - please make my article Open Access. I understand that there is a \$2,195 APC associated with Open Access publication. Some institutions offer assistance for open access funding. Check our [institutional partners list](#) to see if yours is one.
- No** - my article is a traditional submission. I understand that over-length paper charges or color charges may still apply, as outlined above.

IEEE apoya la elección del autor cuando se publica en una revista híbrida.

Se les pide a los autores de revistas híbridas que seleccionen acceso abierto o tradicional (no OA) después de la aceptación.

La lista de socios institucionales va a <https://open.ieee.org/for-institutions/institutional-partners/>

Después de la aceptación – Selección de derechos de autor

Después de la aceptación, se les pedirá a los autores que elijan su licencia de derechos de autor utilizando el Formulario Electrónico de Derechos de Autor (eCF).

Los autores que publican en **revistas híbridas** pueden elegir entre:

1. Una licencia tradicional (en la que los derechos de autor se transfieren al editor)
2. Una licencia CC-BY 4.0 (en la que el autor conserva los derechos de autor y el artículo se publica en acceso abierto).
3. Una licencia CC-BY NC-ND (una licencia más restrictiva que CC-BY en el sentido de que el artículo no puede ser reutilizado con fines comerciales, ni puede ser cambiado de ninguna manera).

Los autores que publican en **revistas Gold** pueden elegir entre CC-BY o CC-BY NC-ND.

****Los autores deben confirmar cualquier restricción de licencia establecida por la institución****

Después de la aceptación – Revista híbrida

Los autores que elijan "tradicional" en un título híbrido **recibirán un correo electrónico** informándoles de la oportunidad de publicar AA si existe un acuerdo activo de AA basado en la afiliación del autor correspondiente..
