

## **Contribución de las publicaciones del PDI de la Facultad de Veterinaria en “Web of Science” a los ODS.**

**Agosto- diciembre 2023**

La biblioteca de la Facultad de Veterinaria presenta este boletín semestral en el que se recogen las publicaciones que “*Web of Science*” indexa y cuya autoría es del PDI de dicha Facultad. En este listado, de momento sólo se reflejan los artículos o sus revisiones que aparecen en la *Core Collection (Web of Science)* Además, para darle más valor a este listado, hemos añadido un gráfico que refleja la aportación científica de dichas publicaciones a los ODS

Para poder analizar la contribución científica a estos objetivos se han utilizado los “*Micro Citation Topics*” definidos por los analistas del Institute of Scientific Information™ (ISI) para cada referencia, y de esa forma identificar la pertenencia de un artículo a uno o varios ODS, si bien es cierto, que no todos los documentos tienen asociado un “*Micro Topics*” que represente un Objetivo de Desarrollo Sostenible, por lo que en el gráfico no se reflejan todas las referencias del informe.
