

Open Access Funding Request Quick Reference Guide

1. The author MUST select their institution at the time of article submission. If the article is not affiliated with the institution included in the open access agreement, the CCC RightsLink transaction will not prompt them to request funding from that institution.

2. At manuscript acceptance, the author receives an email invitation to enter the Journal Publishing Agreement (JPA) Tool. This tool interactively drives the author to the appropriate JPA based on journal, agreement affiliation and author response.
